Part I. Subjects

THE METALLURGICAL SOCIETY OF AIME

HONORS AND AWARDS

The Metallurgical Society of AIME honors six as Fellows. February 1976, p. 20.

Awards of The Metallurgical Society of AIME. February 1976, p. 22.

1976 Annual Meeting Lecturers. February 1976, p. 21.

1976 AIME Awards. February 1976, p. 23.

MEETINGS AND PROGRAMS

1976 TMS-AIME Fall Meeting: Program. August 1976, p. 14.

1977 TMS-AIME Annual Meeting Program. December 1976, p. A1.

Superalloys–Metallurgy and Manufacture: Report on the Seven Springs Conference. W. P. Danesi. December 1976, p. 35.

1976 SME-AIME Fall Meeting and Exhibit: Selected Program. July 1976, p. 29.

1976 Offshore Technology Conference: Selected Program. April 1976, p. 23.

International Conference on Liquid Metal Technology in Energy Production. February 1976, p. 13.

Highlights of the 1976 TMS Fall Meeting, Niagara Falls. July 1976, p. 18.

AIME's GEM White House Conference. June 1976, p. 31.

Program: U.S. Energy & Mineral Supplies: Meeting National Needs. April 1976, p. 14.

1975 AIME Annual Report. April 1976, p. 19.

OFFICERS

Harold W. Paxton: 1976 President of The Metallurgical Society. February 1976, p. 4.

1976 Officers of The Metallurgical Society of AIME. February 1976, p. 27.

1976 AIME President. February 1976, p. 26.

1977 Officers and Board of Directors of The Metallurgical Society of AIME. July 1976, p. 34.

Nominations for 1977 AIME Officers. July 1976, p. 31.

TECHNICAL ARTICLES

AIME

Changes in AIME Bylaws. May 1976, p. 30.

1976 Henry Krumb Lecturers. February 1976, p. 26.

1976 President of AIME. February 1976, p. 26.

Refund of AIME Headquarters Dues Allocation for Membership in More than One AIME Constituent Society. J. B. Alford. January 1976, p. 33.

ALUMINUM

Aluminum. H. Forberg. March 1976, p. 22.

Direct current coloring of anodized aluminum. K. Yanagida, T. Hirokane, T. Tsuyukiyasu, T. Sato. September 1976, p. 3.

Development of aluminum architectural alloys–a statistical approach. E. C. Franz, W. T. Evans, R. D. Blackburn. September 1976, p. 12.

Electromagnetically driven flows in metals processing. J. Szekely, C. Chang. September 1976, p. 6.

Nominations for 1977 AIME Officers. July 1976, p. 31.

TECHNICAL ARTICLES

AIME

Changes in AIME Bylaws. May 1976, p. 30.

1976 Henry Krumb Lecturers. February 1976, p. 26.

1976 President of AIME. February 1976, p. 26.

Refund of AIME Headquarters Dues Allocation for Membership in More than One AIME Constituent Society. J. B. Alford. January 1976, p. 33.

ALUMINUM

Aluminum. H. Forberg. March 1976, p. 22.

Direct current coloring of anodized aluminum. K. Yanagida, T. Hirokane, T. Tsuyukiyasu, T. Sato. September 1976, p. 3.

Development of aluminum architectural alloys–a statistical approach. E. C. Franz, W. T. Evans, R. D. Blackburn. September 1976, p. 12.

Electromagnetically driven flows in metals processing. J. Szekely, C. Chang. September 1976, p. 6.

New aluminum alloys for automobile bodies. R. Deschamps, R. Develay, J. Peyraud. September 1976, p. 15.

COBALT

Extraction of copper, nickel and cobalt from sea nodules. R. Sridhar, W. E. Jones, J. S. Warner. April 1976, p. 32.

Nickel, cobalt. March 1976, p. 16.

COPPER

Copper. M. Manzone. March 1976, p. 15.

The cupric chloride hydrometallurgical process for copper recovery from scrap. S. H. Langer, M. A. Nametz. July 1976, p. 9.

Extraction of copper, nickel and cobalt from sea nodules. R. Sridhar, W. E. Jones, J. S. Warner. April 1976, p. 32.

The KIVCET cyclone smelting process for impure copper concentrates. G. Melcher, E. Muller, H. Weigel. July 1976, p. 4.

Processing of ocean nodules: a technical and economic review. J. C. Agarwal, N. Beecher, D. S. Davies, G. L. Hubred, V. K. Kakaria, R. N. Kust. April 1976, p. 24.

CRYSTALLOGRAPHY

Crystallographic factors affecting the adherence of paint to deformed galvanized steel. H. Leidheiser, D. Kim. November 1976, p. 19.

Texture analysis and anisotropy in metals. G. J. Davies. July 1976, p. 21.

ECONOMICS

Energy, Environment and Materials. L. V. Azaroff. January 1976, p. 25.

Forces for change in the metallurgical industry. W. H. C. Simmons. January 1976, p. 5.

Metals–an endangered species? J. K. Tien, R. M. Arons, R. W. Clark. December 1976, p. 26.

Money and metallurgy. J. C. Agarwal. November 1976, p. 30.

Public policy and the materials industry. I. S. Servi. November 1976, p. 32.

The role of recycling in conservation of metals and energy. H. H. Kellogg. December 1976, p. 29.

EDUCATION

Changes in the ECPD Accreditation Procedures. February 1976, p. 3.

Materials science and engineering at the Open University. A. R. Rosenfield, A. Lawley. August 1976, p. 38.

1976 Senior Class. J. P. Nielsen, K. Mukherjee. April 1976, p. 12.

ELECTROMETALLURGY

Cathode deposit control in lead electrorefining. C. J. Krauss. November 1976, p. 4.

Electrometallurgy. P. Duby. March 1976, p. 8.

ENERGY

Energy, Environment and Materials. L. V. Azaroff. January 1976, p. 25.

Materials for electrical transmission. F. Lincoln Vogel. June 1976, p. 25.

Money and metallurgy. J. C. Agarwal. November 1976, p. 30.

The role of recycling in conservation of metals and energy. H. H. Kellogg. December 1976, p. 29.

Solar energy in the metallurgical industries: an overview. H. Alan Fine. June 1976, p. 15.

ENVIRONMENT

Energy, Environment and Materials. L. V. Azaroff. January 1976, p. 25.

Environmental issues. March 1976, p. 33.

EXTRACTIVE METALLURGY

Annual Review of Extractive Metallurgy. March 1976, p. 4.

Extraction of copper, nickel and cobalt from sea nodules. R. Sridhar, W. E. Jones, J. S. Warner. April 1976, p. 32.

Metallurgy of the direct smelting of lead. A. G. Matyas, P. J. Mackey. November 1976, p. 10.

Processing of ocean nodules: a technical and economic review. J. C. Agarwal, N. Beecher, D. S. Davies, G. L. Hubred, V. K. Kakaria, R. N. Kust. April 1976, p. 24.

FRACTURE

Metallographic study of hydrogen-induced cracking in line pipe steels. A. P. Coldren, G. Tither. May 1976, p. 5.

GEM

AIME's GEM White House Conference. June 1976, p. 31.

Public policy and the materials industry. I. S. Servi. November 1976, p. 32.

HEAT TREATMENT

Laser heat treating of steels. G. H. Harth, W. C. Leslie, V. G. Gregson, B. A. Sanders. April 1976, p. 4.

HIGH TEMPERATURE METALS

Chemical vapor deposition of structural ceramic materials. J. E. Doherty. June 1976, p. 6.

High temperature metals. R. A. Gustison. March 1976, p. 21.

HYDROGEN

Metallographic study of hydrogen-induced cracking in line pipe steels. A. P. Coldren, G. Tither. May 1976, p. 5.

HYDROMETALLURGY

The cupric chloride hydrometallurgical process for copper recovery from scrap. S. H. Langer, M. A. Nametz. July 1976, p. 9.

Hydrometallurgy. M. Wadsworth. March 1976, p. 4.

Quick leach of siliceous zinc ores. Ralph E. Dufresne. February 1976, p. 8.

IMPLANTS

The effect of different dental implant materials on oral tissue compatibility. E. C. Ethridge. May 1976, p. 14.

LABORATORIES

Albany Metallurgy Research Center. July 1976, p. 20.

LEAD

Cathode deposit control in lead electrorefining. C. J. Krauss. November 1976, p. 4.

Lead, zinc, tin. T. R. A. Davey, G. M. Willis. March 1976, p. 16.

Metallurgy of the direct smelting of lead. A. G. Matyas, P. J. Mackey. November 1976, p. 10.

LIQUID METALS

Electromagnetically driven flows in metals processing. J. Szekely, C. Chang. September 1976, p. 6.

MANGANESE

Processing of ocean nodules: a technical and economic review. J. C. Agarwal, N. Beecher, D. S. Davies, G. L. Hubred, V. K. Kakaria, R. N. Kust. April 1976, p. 24.

METALLURGICAL PROFESSION

Citation criteria for ranking academic departments. G. G. Crosbie, R. W. Heckel. September 1976, p. 27.

Citation Index: letters to the editor. September 1976, p. 19. December 1976, p. 33.

Comments on citation study of materials science departments. R. Roy. June 1976, p. 29.

A recount of the citation index. W. A. Jesser, A. M. Rijke. August 1976, p. 44.

Ford and Carter–their views on technology. September 1976, p. 23.

Limits of growth and the engineer. P. G. Shewmon. May 1976, p. 22.

Professional recognition: alternatives to licensure. October 1976, p. 6.

A proposed TMS/AIME certification program. November 1976, p. 28.

Shouldn't you have a P.E. license? Lawrence J. Hollander. August 1976, p. 10.

THE METALLURGICAL SOCIETY

An Interview with Harold W. Paxton. February 1976, p. 4.

1976 TMS/AIME Honors. February 1976, p. 20.

1976 Officers of Board of TMS. February 1976, p. 27.

TMS Fall Meeting Highlights. July 1976, p. 18.

TMS Fall Meeting. August 1976, p. 14.

NUCLEAR METALS

Nuclear metals. H. F. Reichard, R. H. Nielsen. March 1976, p. 25.

Void swelling in fast reactor materials–a metallurgical problem. W. G. Johnston, T. Lauritzen, J. H. Rosolowski, A. M. Turkalo. June 1976, p. 19.

NICKEL

Extraction of copper, nickel and cobalt from sea nodules. R. Sridhar, W. E. Jones, J. S. Warner. April 1976, p. 32.

Nickel, cobalt. March 1976, p. 16.

Processing of ocean nodules: a technical and economic review. J. C. Agarwal, N. Beecher, D. S. Davies, G. L. Hubred, V. K. Kakaria, R. N. Kust. April 1976, p. 24.

OCEAN NODULES

Extraction of copper, nickel and cobalt from sea nodules. R. Sridhar, W. E. Jones, J. S. Warner. April 1976, p. 32.

Processing of ocean nodules: a technical and economic review. J. C. Agarwal, N. Beecher, D. S. Davies, G. L. Hubred, V. K. Kakaria, R. N. Kust. April 1976, p. 24.

PHYSICAL CHEMISTRY

Physical chemistry. H. Y. Sohn. March 1976, p. 29.

PRECIOUS METALS

Precious Metals. March 1976, p. 15.

Refining of the platinum-group metals. R. J. Edwards. August 1976, p. 4.

PYROMETALLURGY

The KIVCET cyclone smelting process for impure copper concentrates. G. Melcher, E. Muller, H. Weigel. July 1976, p. 4.

Pyrometallurgy. P. Tarassoff. March 1976, p. 11.

RESEARCH PLANNING

Evaluation and selection of projects in industrial research. N. J. Themelis. January 1976, p. 15.

Managing new venture research. D. W. Lillie. January 1976, p. 21.

STEEL

Metallographic study of hydrogen-induced cracking in line pipe steels. A. P. Coldren, G. Tither. May 1976, p. 5.

SUPERALLOYS

Superalloys for advanced energy systems. C. T. Sims. December 1976, p. 7.

Superalloys–Metallurgy and Manufacture: Report on the Seven Springs Conference. W. P. Danesi. December 1976, p. 35.

TIN

Lead, zinc, tin. T. R. A. Davey, G. M. Willis. March 1976, p. 16.

TITANIUM

Titanium. K. B. Higbie, F. W. Wessel. March 1976, p. 24.

ZINC

Crystallographic factors affecting the adherence of paint to deformed galvanized steel. H. Leidheiser, D. Kim. November 1976, p. 19.

Lead, zinc, tin. T. R. A. Davey, G. M. Willis. March 1976, p. 16.

Quick leach of siliceous zinc ores. Ralph E. Dufresne. February 1976, p. 8.
